

DT&C VINA CBTL CERTIFICATION

Global Top Testing Laboratory

(+84) 862 619 168

What is the IECEE CB Scheme?

- CB Scheme operated by IECEE is a test report and certificate that deals with the safety of electrical/electronic components, devices and products. It is an international system for mutual recognition.
- The "CB" in CB Scheme stands for Certification Body. The official name of the CB Scheme is actually the "Scheme of the IECEE for Mutual Recognition of Test Certificates for Electrical Equipment."

Dt&C Vina is a testing organization in Vietnam that offers the most comprehensive range of CB certification testing services for electronic products, including home appliances, lighting equipment, audio-visual devices, and information & communication technology (ICT) equipment.

The IECEE CB Scheme promotes the harmonization of national and international standards and serves as a global certification system. It is a multilateral agreement among participating countries and certification bodies, aiming to facilitate trade by fostering cooperation between nations.
